It is the custom with our road supervisors to have the ditching done first. This is not in accord with the best road builders in territory where stone and gravel are used. Their advice is to put all metal in the center of the road, then throw dirt on the metal to hold it in place and keep the center of the road high, which is the first principle of good roads. Good road building in this part of Kentucky is a thing of the past.

Sufficient money is spent to keep the roads in repair, but the proper system is not employed. The county judge should call a meeting of the road supervisors to meet and hear a lecture by a professional road builder. Mr. McWhorter is supervisor of the Green river section and there is not a better one in the county. A lecture by him to the supervisors would save the county much money if they would follow his advice.

WHENEVER the whisky advocates in general and the Frankfort State Journal and Courier-Journal in particular, fall short of argument they shout "look at Maine!" Well, let's look at Maine. Statistics show that drunkenness there has decreased under prohibition. Maine has more savings banks, a greater per capita and better schools than almost any other State we can recall. That isn't a bad record. Kansas is dry and that State is prosperous and her people are satisfied with prohibition. Atlanta citizens (men that we know and not hearsay) are delighted that the open saloon no longer exists. Records show that business is improved and that less than half as many people have to be supported by the city as when whisky was sold there. But Messrs. Walton and Watterson cry out in unison, "prohibition does not prohibit" and "just look at Maine." That settles the question with those splendid, but erring gentlemen, and they go ahead feeling as if a momentous question has been solved for the people of this good State. Mr. Walton thinks that local option is a failure here in Stanford because this paper occasionally reports a case of drunkenness, or mentions some skunk being fined for bootlegging. When he lived here and when saloons were operated a drunken man was not an unusual sight but it is now, so unusual in fact, that it is almost an item of news. Some whisky is being sold here under local option but we hope to eventually stop it entirely. Rome was not built in a day. The fear of being put to death does not stop some people from committing murder, but it certainly decreases it. Local option may not stop the sale and drinking of whisky entirely but it decreases it to such an alarming extent that the distilleries and whisky dealers are almost frantic with rage at those who dare oppose their business. THE INTERIOR JOURNAL did not say, Brer Walton, that the temperance people are more sensible than those who favor "booze," but it did say and reiterates that all of the brains of the State are not found on your side of the whisky question. You are as far off there as when you say that temperance people are governed more by sentiment than by good, common, every day sense and practicability. Judge not lest that ye be judged. The temperance people have the good of the State at heart and while some may be over-zealous, sentiment cuts no figure with them. They believe they are on the right side of the most important question that has ever confronted them and they don't propose to quit until they conquer. They invite you and Mr. Watterson to join them and promise you good treatment but you had better get used to a "dry" climate before accepting their invitation.

PRESIDENT TAFT sent a special message to Congress indorsing a new Philippine tariff bill, prepared by a committee of experts. A new bill is said to be necessary for the islands as a result of the tariff legislation in this country, and the new measure will correct, it is maintained, many of the faults of the present act.

THE effects of Patten's big deal in May wheat are being felt all over the country. Master bakers in the cities are holding meetings and agreeing upon an increase in the price of bread. Who said the election of Taft meant cheaper bread? This country is now experiencing small loaves and still less "filling" in them.

In the Aldrich tariff bill the duty on champagne is raised to \$9.60 a dozen. But what do we fellows who live in a dry town care about such things? If champagne were on the free list and bargain counter as well, we wouldn't get a smell of it.

JUDGE ROBERT LEE STOUT, of the Woodford circuit court, is suggested for governor. He would make a most excellent executive.

POLITICAL.

Senator Bailey introduced his amendment to the tariff bill, putting a tax of 3 per cent on incomes over \$5,000.

All the Senators have received from Senator Bradley, of Kentucky, a quart bottle of fine whisky.

Senator Guggenheim, of Colorado, one of the richest men in Congress, is said to favor an income tax.

The Democratic Senators agreed to stand by Senator Paynter in his fight against the 6-cent tax on leaf tobacco.

Senator Aldrich opened the debate on the tariff bill in the Senate. He will be followed by Senator Daniels for the Democrats.

A political sensation in Japan, involving charges of bribery, has led to the arrest of nine members of the lower house of the Diet.

Senator Bob Taylor continues to refuse to sign Mrs. Carmack's petition for appointment as postmistress at Columbia, Tenn.

After a lengthy debate the New York Senate adopted an adverse committee report on the Hinman-Green bill, Gov. Hughes' direct nominations measure.

Secretary of War Dickinson and his party left Washington on their way to Panama, where the Secretary will spend ten days inspecting the work on the canal.

Congressman Ben Johnson, before leaving Washington for a short vacation in Kentucky, announced his candidacy for the democratic nomination for governor to succeed Gov. Willson.

A primary will be held in Menifee county June 26 to nominate a democratic candidate for Representative from that and Montgomery county; it being Menifee's time to furnish the candidate.

The Texas House of Representatives finally passed, as it was believed, the bank deposit guaranty bill. After its passage it was discovered that while the constitution required a third reading before final passage, the bill had only been read twice.

The democratic primary in Jessamine county resulted as follows: Senator, B. M. Arnett; Judge, J. H. Phillips; Sheriff, S. B. Muir; Assessor, E. Cassidy; Jailor, Richard Hager; Coroner, N. M. Kirkpatrick. The senatorial election in this, the Twenty-second district, was left to Jessamine county. Mr. Arnett's opponent was Dr. T. R. Welch.

As an introducer of bills Representative Bennett, of Kentucky, is entitled to the first prize. He introduced in one batch over 400 bills, more than was ever introduced at one time in Congress before. Several hundred of them are private pension bills, others are bills for the relief of various churches and individuals in Kentucky and others are war claims.

The Democratic Senators will not delay the passage of the tariff bill. They held their second conference and while no formal conclusion was reached, there was a general consensus of opinion in favor of permitting the Republicans to take entire charge of the measure, with the understanding that they assume, as they necessarily must, the entire responsibility for it.

Gov. Edward L. Norris, of Montana, heading the building commission from that State, visited the new State Capitol at Frankfort Saturday to inspect the building and get some new designs to put into play in the improvement of the new State buildings at Helena, the capital of Montana. Gov. Norris is a native Kentuckian and was received with all that is due a native son, both at Frankfort and Louisville.

DANVILLE COURT.—The cattle business was quiet at Danville court yesterday. There were about 150 on the market and the best price realized was 41c. Butcher stuff was slow at 24 to 31c. The horse and mule market was very dull.

The Georgia peach crop is safe, according to State Commissioner of Agriculture Hudson. There have been only very light frosts in Georgia this month, and it is believed that the peach crop will be as early as that of last season and fully as heavy.

The horse show at Danville yesterday did not compare with that here Monday week. Fully twice as many stallions were exhibited here and the quality was quite as good. Two of Lincoln county's best—D. S. Carpenter's Dignity Dare and E. S. Powell & Son's Almont Dare—were shown at Danville and they attracted a great deal of attention.

There was a hen
Too old to lay.
The farmer men
Off looked her way.
She saw them at her silly winking
And so began to do some thinking.
She knew that she
Could earn no corn
And fricassee
Might soon adorn.
But coldly she the problem tackled;
When others layed she loudly cackled.
Her little scheme
Worked well, indeed,
Her owners deem
Her worth her feed.
About the yard she waxes fatter
And still escapes the dreaded platter.

Rheumatism
I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the twisted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made, a perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can cure all cases of this horrible disease. Those and like granular wastes, found in Rheumatic blood, seem to dissolve and pass away under the action of this remedy as freely as sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend
